To the Citizens of Decatur:—Although I have been absent for several weeks, doing work for Messrs. Abel & Locke, yet from now on I can fill all orders for work promptly; and although many of our fine paper-hangers here represent that I am away and cannot do your work, they are fooling you. Just leave your orders at Abel & Locke's office, as heretofore, and if you wish a room to suit you I can fix it up. I do not have ten thousand patterns to select from, but I can take any common papers out of the house here and make a better room than any of the others can with the best; or I can select the fine papers and decorate your walls in a style unsurpassed in the West. Leave orders at Abel & Locke's.

Respectfully, D. LEVY.

CURIOSITIES OF ETIQUETTE.

From the Philadelphia Record.

The rules of etiquette are as old as society and as varied as are the races of people who inhabit the earth. As a rule, probably, it may be safely set down that the ruder the people the more absolute are the codes of manners. The punctilious etiquette observed in Spain, where a woman dares not sit with her legs crossed, and where a monarch hardly feels at liberty to put on his shirt without the permission of the Chamberlain, has long been the wonder of less formal people. It is not so very many years since Spanish ladies were not allowed to eat at the same table with their husbands. But this fine breeding is outdone by the Bulgarians. The newly-married wife in Bulgaria dares not speak to her husband for a month or more. The prohibition used to last nine months. She is relieved from the obligation of silence when her lord presents her with a gift. Among the Caffres of South Africa the women are not allowed to mention the name of their father-in-law, and they must hide themselves when they meet their sons-in-law. The delicacy about calling names is extended to the parliamentary practice of civilized peoples. In the Legislature it is the height of impropriety to call an honorable member by his right name, although the custom is found to be a very convenient one in ordinary life. In New Caledonia the names of natural objects are given to children; but if the child dies the relatives must no longer call the natural object by its former name. A new appellation has to be invented for use in that particular family. The custom gives a remarkable variety to the New Caledonian dialect, and tasks the invention of parents who are so unfortunate as to lose their offspring. On "tabu days" in the South Sea Islands, any one who makes a noise must die. This regulation is as bad as any of the Connecticut blue laws. But there is hardly any form of etiquette that has survived to do duty in polite society but has its origin in some of the grosser observances of antiquity.

NIHILISM.

The old truth that abstract ideas will in time work themselves out in forms of political combination receives a fresh illustration in the Nihilist conspiracy which now threatens the peace of Russia. As far as appears, Nihilism is another name for positivism. It denies the possibility of religious knowledge, and therefore takes the Agnostic view of the world and man. As in Christendom all civil institutions, law, marriage, and morals are founded on the Christian religion, Nihilism has begun war upon these, and in despotic Russia such a war quickly brings on a crisis. Strange to say, the seeds of Nihilism were sowed by a novelist—Tourgueneff. The students of the universities have been fascinated by this protest against society as now organized in the empire, and Nihilist clubs have sprung up in all directions. The Russian police confess their inability to put down the clubs.—*Harper's Weekly.*

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. [illegible] of woody fibre, all mixtures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of elimination, keeps them [illegible], and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe [illegible], I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For two years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
GEO. W. HOLBROOK.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, pain-curers, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in *our possession*. *Many remarkable cases* have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine*. All we ask from every sufferer in the land is a single trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any *similar remedy can be bought*, numbers of unscrupulous dealers will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. To the Citizens of Decatur:—Although I have been absent for several weeks, doing work for Messrs Abel & Locke, yet from now on I can fill all orders for work promptly, and although many of our fine paper-hangers here represent that I am away and cannot do your work, they are fooling you. Just leave your orders at Abel & Locke's office, as heretofore, and if you wish a room to suit you I can fix it up. I do not have ten thousand patterns to select from, but I can take any common papers out of the house here and make a better room than any of the others can with the best, or I can select the fine papers and decorate your walls in a style unsurpassed in the West. Leave orders at Abel & Locke's.

CURIOSITIES OF ETIQUETTE.

From the Philadelphia Record.

The rules of etiquette are as old as society and as varied as are the races of people who inhabit the earth. As a rule, probably, it may be safely set down that the ruder the people the more absolute are the codes of manners. The punctilious etiquette observed in Spain, where a woman dares not sit with her legs crossed, and where a monarch hardly feels at liberty to put on his shirt without the permission of the Chamberlain, has long been the wonder of less formal people. It is not so very many years since Spanish ladies were not allowed to eat at the same table with their husbands. But this fine breeding is outdone by the Bulgarians. The newly-married wife in Bulgaria dares not speak to her husband for a month or more. The prohibition used to last nine months. She is relieved from the obligation of silence when her lord presents her with a gift. Among the Caffres of South Africa the women are not allowed to mention the name of their father-in-law, and they must hide themselves when they meet their sons-in-law. The delicacy about calling names is extended to the parliamentary practice of civilized peoples. In the Legislature it is the height of impropriety to call an honorable member by his right name, although the custom is found to be a very convenient one in ordinary life. In New Caledonia the names of natural objects are given to children, but if the child dies the relatives must no longer call the natural object by its former name. A new appellation has to be invented for use in that particular family. The custom gives a remarkable variety to the New Caledonian dialect, and tasks the invention of parents who are so unfortunate as to lose their offspring. On "tabu days" in the South Sea Islands, any one who makes a noise must die. This regulation is as bad as any of the Connecticut blue laws. But there is hardly any form of etiquette that has survived to do duty in polite society but has its origin in some of the grosser observances of antiquity.

NIHILISM.

The old truth that abstract ideas will in time work themselves out in forms of political combination receives a fresh illustration in the Nihilist conspiracy which now threatens the peace of Russia. As far as appears, Nihilism is another name for positivism. It denies the possibility of religious knowledge, and therefore takes the Agnostic view of the world and man. As in Christendom all civil institutions, law, marriage, and morals are founded on the Christian religion, Nihilism has begun war upon these, and in despotic Russia such a war quickly brings on a crisis. Strange to say, the seeds of Nihilism were sowed by a novelist—Tourgueneff. The students of the universities have been fascinated by this protest against society as now organized in the empire, and Nihilist clubs have sprung up in all directions. The Russian police confess their inability to put down the clubs.—*Harper's Weekly.*

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

In the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal [illegible]

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once cleansing, and purifying the secretions. It is internally administered [illegible] the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe [illegible] I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
GEO. W. HOLBROOK.

GOLD in New York on Saturday closed at 101.

LORD BEACONSFIELD has started for Berlin to attend the European peace congress.

PRESIDENT HAYES has approved the bill to repeal the bankrupt law. The repealing bill takes effect on the first day of September next.

THE Chicago markets on Saturday were excited and active, owing to the reported heavy rains throughout the country. Wheat advanced 1¼c, closing at ½c higher than on Friday. Corn sold at ⅜c higher than on the day previous, closing at an advance of ¼c. Hogs also advanced 15 cents per 100lbs.

POTTER and his fellow Mexicanisers are not getting much out of their investigation so far. They have succeeded in developing some of the very crooked efforts of their own friends in Louisiana, and in showing that their main witness is a perjured villain. Further than this they have not gone yet.

IN the opinion of the St. Louis Post "there hardly seems to be any reasonable doubt that Grant will be the next Republican candidate for the presidency, and this is not the strangest part of it. The strangest part of it is that he will receive the strongest support from those who were loudest in their denunciations of Cæsarism, unless indeed it is stranger still to believe that he will be supported on account of the conversion of the people to Cæsarism. If he is elected the Democracy will have only itself to thank." There has been more converts made to Cæsarism in the United States, within the last two weeks, than were ever heard of in Rome.—And, what is stranger than all, the Potter fellows in congress are actually making Democratic converts to Cæsarism all over the country.

A SPECIAL of the 7th, from Quincy, says. Although the convention which adjourned last night after it had, by just a majority on the 249th ballot, nominated Gen. James W. Singleton for Congress from this (Knapp's 11th) district, voted unanimously to confirm the nomination, yet it was evident that in the two days' struggle much bad blood had been engendered among delegates outside of Adams county. In fact, the only really satisfied delegates were those of Adams and Brown counties, who stuck to Gen. Singleton from the start. This ill feeling culminated at a very early hour this morning in almost a tragedy at the Tremont House. Judge Patterson, of Greene county, and Ed. Yates, of Pike, got into an altercation, when it is said the latter struck the judge, who let fly with a hickory club, felling Yates to the floor. Yates, however, immediately raised, and drawing his revolver fired at Judge Patterson. Probably from the effects of being up all night, and the excitement of the days, the aim was unsteady, the ball passing to the left on a line with Judge Patterson's head, imbedding itself in the wall, there to remain as a memento of the hard struggle in one of most memorable Congressional conventions ever held.

Democratic Economy.

It makes all the difference in the world whose ox is gored, and this truth has just received a fresh illustration. The Rock Island *Argus*, which as a newspaper is a Bourbon of Bourbons, is favored recently with direct information from a reliable source that the appropriations for the Rock Island arsenal will fall for this year. The reason is that Mr. A. S. Hewitt, of the house committee on appropriations, says, "not a dollar." The *Argus* waxes wroth over the matter and denounces the refusal to appropriate as "false economy." There are a large number of skilled mechanics at the arsenal brought there from Massachusetts, New York and elsewhere, who are now out of employment and have been for several months. They have been living on the hope of a new appropriation, but now that hope is destroyed.

We fear Henry Watterson, of the Louisville *Courier-Journal*, like Stanley Matthews, [illegible]. At times his indiscretion is absolutely alarming. Just now he is in New York, and declares [illegible] Democrats have no idea of driving Hayes from the White House; the horse is too small for so heavy a load—to use his illustration—but they hope to drive John Sherman out of the cabinet. It is truly sublime, the picture of Democracy suggested by this observation! The man who has made [illegible] without contraction an accomplished [illegible] in advance of [illegible] the opposition party mean to banish from the administration, and why? Because, as they say, he wrote a letter to a couple of Louisiana supervisors of election, assuring them that if they should be obliged to flee from the state for doing their political duty, he would do what he could to provide for them elsewhere.—But Mr. Sherman is not through with that committee. He has several nuts for them to crack. He asks leave to prove the intimidation and outrages which the resolution creating the committee charges were falsely alleged at Mr. Sherman's instigation. It would be a monstrous unfairness to deny him the privilege which goes to the very root of the matter. To do it would be to forfeit for the committee and its work all public respect. No action has yet been taken upon the Sherman gauntlet.—*Tribune* [illegible].

IN an article upon decoration day the New York *Times* takes notice that we "have [illegible] during the last ten years. It now seems almost incredible that men could have honestly thought they were doing their duty in trying to impose a government of force upon the people of one-half of the Union. The statesmen who control the House of Representatives have clearly shown that the Federal government can never have a right to use an army to thwart the will of the people or to suppress domestic disturbances. When the disorder which began in the attack on Fort Sumter occurred, it was either a form of domestic disturbance or an uprising of the people. If it was the former, it should have been quelled by the militia of South Carolina; if the latter, it was a crime to suppress it by force. In neither case could the Federal army be lawfully used. Nevertheless, we know that the surrender of Sumter was the pretext for the assembling of a large army, by which the Southern people were finally overthrown in battle. We may pity the Union soldiers who died in the field, but in the light of modern congressional gospel we cannot fail to see that they were acting illegally and as a federal police force."

PREPARATION FOR THE CAMPAIGN.

The Florida Investigation.

Horrible Poisoning Case

Foreign News.

WASHINGTON, D. C. June 8.—Mr. Spencer submitted the following:

Resolved, In order that all the facts connected with the Presidential election of 1876, and the result thereof which was finally reached, may be fully known to the American people, a select committee of eight Senators be appointed, and instructed to inquire into and investigate all the charges of fraud, illegality, intimidation, violence and other obstacles to free and honest suffrage occurring at said election in the States of South Carolina, Florida and Louisiana, and also into all similar charges which said committee may deem of sufficient gravity concerning said election in Alabama, Mississippi, Oregon or any other State, also into all the circumstances which they may deem it expedient to investigate connected with the Presidential Electoral count in the Forty-fourth Congress; also, into all the circumstances of the dissolution of the Legislature and Government in the State of Louisiana, known as the Packard Government, and the establishment of the Legislature and Government known as the Nicholls Government, and to ascertain whether or not such dissolution of the Government and establishment of another was in concurrence of any act or transactions occurring prior to March 4, 1877, and through what persons or agencies, if any, such result was accomplished, and that said committee have power to appoint sub-committees, employ clerks and stenographers, administer oaths, to send for persons and papers, to examine witnesses, to sit during the recess, with all the powers of a full committee of the Senate; and that the expenses thereof be paid from the contingent fund of the Senate.

Mr. Bayard.—Let that lay over and be printed

Mr. Spencer gave notice that he would call the resolution up every day until a vote upon it should be reached

WASHINGTON, June 8.—Secretary Sherman declines to make public his letter to the Potter committee yesterday, until that committee acts upon it. The secretary, in a letter, replies to a charge that he had entered into a conspiracy to make false returns of elections; that it was free and fair, and and offers certain testimony to show there was fraud, violence and intimidation in the Felicians parishes by Democrats. He furnishes the names of one hundred witnesses to prove his assertions. The report refers to the testimony of witnesses on former investigation, and gives a resume of the number of persons whipped, burned and hanged. He asks that the committee accord him the right to prove what he asserts.

WASHINGTON, D. C., June 9.—Senator Edmunds will, to-morrow, ask to be excused from service on the special committee appointed by request of Mr. Matthews to inquire into matters touching the last Presidential election in Louisiana. Mr. Edmunds has been suffering from malaria, and desires to return home immediately after the adjournment.

The bond of ex-Gov. Packard, of Louisiana, as Consul to Liverpool, has been received at the State Department and approved.

It is reported Senator Matthews was served last night with a subpoena, to appear before the Potter Committee, but the Sergeant-at-Arms, at a late hour to-night, had received no report from his deputy subpoena clerk, in whose hands it was placed. It has not yet been served, but there is no doubt it will be to-morrow morning.

DENVER, Col., June 8.—A circular just issued by D. C. Dodge, General Agent of the Denver and Rio Grande Railway, stops the sale of through tickets or contracts for freight through to Denver. This cuts off the Atchison, Topeka and Santa Fe from Pueblo lines, except at local rates, and is evidence of Jay Gould's control. The result will probably be the [illegible] of the Atchison, Topeka and Santa Fe from Pueblo to Denver.

PHILADELPHIA, June 9.—The Socialists had arranged for a hall for a mass meeting Tuesday evening, but on going to pay the rent, were told the Mayor had requested the proprietor not to permit the meeting. An indignation meeting was held and strong language against the action of the Mayor indulged in. Arrangements were made for another hall.

LONDON, June 8.—The explosion in Evans' coal mines, at Haydock, yesterday, occurred at 11 o'clock in the morning. The Woodpit colliery consists of two mines—Ravenshead and Florida. The explosion was confined to the last named. The men went to work at 6 a. m. The condition of the mind had been examined as usual, and ten minutes before the disaster, it was, to all appearances, safe. There were 250 men in the Woodpit colliery—eighteen in the Ravenshead, and the remainder in the Florida mine. The men in the Ravenshead were got out immediately; one died, and the others were affected by choke-damp. The two mines are connected by a tunnel, and it was in the working of the Florida mine, beyond the tunnel, that the explosion occurred. It is the general opinion that every man in that part of the mine is dead.

The explorers found the dead bodies of men and horses on every side, fearfully burnt and mutilated, giving evidence of the dreadful force of the explosion. A great fall of coal occurred.

The men engaged in exploring the mine are working day and night, endeavoring to reach the place where most of the bodies are supposed to lie.

Great crowds of men, women and children have assembled in the vicinity of the pit, and the general opinion prevails that nearly every family in the village of Haydock has suffered the loss of one or more of its members.

No powder was used in the mine.—The manager of the mine went down the shaft five minutes after the explosion, and finding a number of men at the bottom lying on their faces, opened the ventilating doors, and thus saved the lives of eighteen men. In the Ravenshead mine the bodies already found are much disfigured. It will probably be days before all the bodies are recovered. The explorers have suffered greatly and have had to be constantly removed. A large staff of doctors is in attendance.

Crowds of women surround the pit since the explosion, weeping and begging for news from the explorers, but, on the whole, the people are very quiet and orderly.

JACKSONVILLE, FLA., June 8.—The committee on election frauds to-day had O. A. Bedington, formerly clerk of Clay county, who testified that one precinct was not included in the regular returns, because it was doubtful whether some of the inspectors were sworn. He afterwards learned they were sworn and made affidavit to the governor of Florida.

A. Bryant, clerk of Leon county, and C. H. Edwards, former clerk, testified regarding the jolly-joker election tickets that Purman had there before the election. Bowes, an inspector, said he put in 73 or 74 jolly-jokers, and when remonstrated with, said he did not care. He had given the state to Hayes with these jokers. Bowes said the poll-list was made to correspond with these votes. Witness (Edwards) said he had objected to the use of the jokers.—Purman said he knew an election that was carried by using them.

Samuel B. McLin was shown a number of telegrams to Gov. Stearns, mostly from W. E. Chandler, setting forth that the election and the salvation of the counry depended on Florida, and means or troops be furnished or a way suggested. Some gentlemen came to represent Hayes, including Chandler and Noyes. Was told anything Noyes said the president would be responsible for, and was told by General Wallace the returning board would be taken care of if the state went for Hayes.

Witness and Stearns agreed that the returns would elect Hayes. There were three returns from Baker county. One of these elected Hayes by forty majority, but either of the others gave Tilden ninety-five majority in the state.—He had, when opportunity admitted, presented such returns as were most favorable to Hayes, and generally the most regular.

COLUMBUS, O., June 9.—The milk poisoning case, which has been briefly alluded to before, upon investigation proves to be one of the most diabolical attempts to take human life ever attempted in this section. Seven years ago Thomas Deems, the father, lost his wife, and soon after secured a housekeeper named Alice Jones. Deems was the owner of one of the most valuable farms in this section, and the possessor of considerable other property. Stephen Deems, a son, had moved to Illinois. A daughter, married, and residing in this city, soon became aware that the woman Jones had gained complete control over her father, and even dictated how the affairs of the farm should be conducted. The father became the tool of the woman, and indulged her in every way. Her will was law. The son was prevailed upon to return from Illinois and look after the homestead. Continued outbreaks were the result. Finally, to put an end to further annoyance, the would-be Borgia poisoned the milk, by which she hoped to put out of the way Stephen Deems, his wife, and four children. Stephen was the only one who drank of the prepared decoction. He became deathly sick, but, by the prompt arrival of a physician, his life was saved. An analysis has been held, and in one quart of the milk thirty grains of arsenic were found. The woman Jones was arrested this afternoon. It is thought the old man will bail her out, if possible, he being about seventy years of age, and completely subject to her will. It is found that the bank account has disappeared, and the farm is heavily mortgaged.

DES MOINES, IA., June 8.—Communists here say boldly that on the day when the Congress is to adjourn (June 27), every car-wheel will stop in the United States at noon. They are evidently preparing for some important event

WASHINGTON, D. C., June 9.—The [illegible] agents of the Republican Congressional Committee are now at work in the departments receiving the contributions of employes to the Republican campaign fund. The employes express themselves as willing and anxious to furnish their share, particularly as now it is a voluntary contribution on their part, and not forced under threats of removal. The amount contributed averages about one per cent of the yearly salary. Under the responsible system formerly in vogue such contributions were sometimes crowded up to 3 and as high even as 5 per cent. Every employe now contributing not only knows that he only bears an equitable share of the burden, but that the funds will reach their destination. Secretary Evarts stated to-day that so far as the cabinet officers were concerned he thought the committee would get more if they would assess a percentage upon the cost of living instead of upon salaries received from the government.—The committee hold meetings twice a week and are making effective preparations for the campaign in the way of selecting documents for circulation.—Accounts received by members from various sections of the country show that Republican enthusiasm has been thoroughly aroused, and notwithstanding the machinations of the Democrats in redistricting states and resorting to other questionable means for an advantage, Republican prospects of the campaign are extremely favorable and daily growing brighter through the energetic efforts of the party workers throughout the country.

AN ASTONISHING FACT.

A large proportion of the American people are to-day suffering from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower, your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent.

No more scraps or doctored tobacco for smokers, when you can buy the celebrated hand made brand, "Tansill's Gen Custer," at two for 15 cents. To get them seasoned you must buy a box, since the manufacturers cannot fill their orders with seasoned goods.

IN the opinion of the St. Louis Post "there hardly seems to be any reasonable doubt that Grant will be the next Republican candidate for the presidency, and this is not the strangest part of it. The strangest part of it is that he will receive the strongest support from those who were loudest in their denunciations of Caesarism, unless indeed it is stranger still to believe that he will be supported on account of the conversion of the people to Caesarism. If he is elected the Democracy will have only itself to thank." There has been more converts made to Caesarism in the United States, within the last two weeks, than were ever heard of in Rome.—And, what is stranger than all, the Potter fellows in congress are actually making Democratic converts to Caesarism all over the country.

A SPECIAL of the 7th, from Quincy, says: Although the convention which adjourned last night after it had, by just a majority on the 249th ballot, nominated Gen. James W. Singleton for Congress from this (Knapp's 11th) district, voted unanimously to confirm the nomination, yet it was evident that in the two days' struggle much bad blood had been engendered among delegates outside of Adams county. In fact, the only really satisfied delegates were those of Adams and Brown counties, who stuck to Gen. Singleton from the start. This ill feeling culminated at a very early hour this morning in almost a tragedy at the Tremont House. Judge Patterson, of Greene county, and Ed. Yates, of Pike, got into an altercation, when it is said the latter struck the judge, who let fly with a hickory club, felling Yates to the floor. Yates, however, immediately raised and drawing his revolver fired at Judge Patterson. Probably from the effects of being up all night and the excitement of the day, the aim was unsteady, the ball passing to the left on a line with Judge Patterson's neck, imbedding itself in the wall, there to remain as a memento of the hard struggle in one of the most memorable congressional conventions ever held.

LETTER FROM NEBRASKA.

YORK, NEB., June 7, 1878.

[illegible] rolling out of bed at midnight [illegible] hour; no more standing on my head to draw the blood to my feet, not a bit of it. This is a healthy climate—pure air, good water, a rich soil, and plenty to eat; and I am growing fat. Indeed, although I have been here but little over [illegible] weeks, and notwithstanding the fact that I brought with me a pair of pants [illegible], I am compelled to grease my legs to get into them. My vest is giving out at the back, my suspenders broke a week ago and my coat is hung away out of the [illegible] hat is the only article of [illegible] fits me. I do not suffer [illegible] as I formerly did, not because this is a temperance town, but because the water is pure and unadulterated. In order to save my clothes I have eaten pickles, drank vinegar, dieted on crackers and cheese. I have even purposely missed my meals and chased jack-rabbits whole days in the heat of a red hot sun; but all this has not the desired effect. The climate is too healthy, and I shall have to return to Illinois. But I have been debating whether I had better return and "bear the tortures of outraged dyspepsia," and thus save my clothes, or remain in Nebraska and let the clothes go. I will probably not be home for a year or two anyway, as I [illegible] a visit on my return [illegible] possibly remain longer in Illinois, to visit the Republican [illegible]

Won't you send me the REPUBLICAN? I was brought up and educated in the REPUBLICAN office, and can't be comforted without the paper, once a week, at least. Send it along and oblige,

Yours very truly,
JNO. W. LYON

Democratic Economy.

It makes all the difference in the world whose ox is gored, and this truth has just received a fresh illustration. The Rock Island *Argus*, which as a newspaper is a Bourbon of Bourbons, is favored evidently with direct information from a reliable source that the appropriations for the Rock Island arsenal will fail for this year. The reason is that Mr. A. S. Hewitt, of the house committee on appropriations, says, "not a dollar." The *Argus* waxes wroth over the matter and denounces the refusal to appropriate as "false economy." There are a large number of skilled mechanics at the arsenal brought there from Massachusetts, New York and elsewhere, who are now out of employment, and have been for several months. They have been living on the hope of a new appropriation, but now that hope is destroyed.

WE fear Henry Watterson, of the Louisville *Courier-Journal*, like Stanley Matthews, [illegible]. At times his indiscretion is absolutely alarming. Just now he is in New York, and declares [illegible] Democrats have no idea of driving Hayes from the White House; the horse is too small for so heavy a load—to use his illustration—but they hope to drive John Sherman out of the cabinet. It is truly sublime, the picture of Democracy suggested by this observation! The man who has made resumption without contraction an accomplished fact months in advance of the date set, the opposition party mean to banish from the administration, and why? Because, as they say, he wrote a letter to a couple of Louisiana supervisors of election, assuring them that if they should be obliged to flee from the state for doing their political duty, he would do what he could to provide for them elsewhere.—But Mr. Sherman is not through with that committee. He has several nuts for them to crack. He asks leave to prove the intimidation and outrages [illegible] the committee charges were falsely alleged at Mr. Sherman's instigation. It would be a monstrous unfairness to deny him the privilege which goes to the very root of the matter. To do it would be to forfeit for the committee and its work all public respect. No action has yet been taken upon the Sherman gauntlet.—*Toledo Blade.*

IN an article upon decoration day the New York *Times* takes notice that we "have [illegible] the last two years. It now seems almost incredible that men could have honestly thought they were doing their duty in trying to impose a government of force upon the people of one-half of the Union. The Statesmen who control the House of Representatives have clearly shown that the Federal government can never have a right to use an army to thwart the will of the people or to suppress domestic disturbance. When the disorder which began in the attack on Fort Sumter occurred, it was either a form of domestic disturbance or an uprising of the people. If it was the former, it should have been quelled by the militia of South Carolina; if the latter, it was a crime to suppress it by force. In neither case could the Federal army be lawfully used. Nevertheless, we know that the surrender of Sumter was the pretext for the assembling of a large army, by which the Southern people were finally overthrown in battle. We may pity the Union soldiers who died in the field, but in the light of modern congressional gospel we cannot fail to see that they were acting illegally and as a federal police force."

WASHINGTON GOSSIP.

PREPARATION FOR THE CAMPAIGN.

The Florida Investigation.

Horrible Poisoning Case

Foreign News.

WASHINGTON, D. C. June 8.—Mr. Spencer submitted the following:

Resolved, In order that all the facts connected with the Presidential election of 1876, and the result thereof which was finally reached, may be fully known to the American people, a select committee of eight Senators be appointed, and instructed to inquire into and investigate all the charges of fraud, illegality, intimidation, violence and other obstacles to free and honest suffrage occurring at said election in the States of South Carolina, Florida and Louisiana, and also into all similar charges which said committee may deem of sufficient gravity concerning said election in Alabama, Mississippi, Oregon or any other State, also into all the circumstances which they may deem it expedient to investigate connected with the Presidential Electoral count in the Forty-fourth Congress; also, into all the circumstances of the dissolution of the Legislature and Government in the State of Louisiana, known as the Packard Government, and the establishment of the Legislature and Government known as the Nicholls Government, and to ascertain whether or not such dissolution of the Government and establishment of another was in concurrence of any act or transactions occurring prior to March 4, 1877, and through what persons or agencies, if any, such result was accomplished, and that said committee have power to appoint sub-committees, employ clerks and stenographers, administer oaths, to send for persons and papers, to examine witnesses, to sit during the recess, with all the powers of a full committee of the Senate; and that the expenses thereof be paid from the contingent fund of the Senate.

Mr. Bayard.—Let that lay over and be printed

Mr. Spencer gave notice that he would call the resolution up every day until a vote upon it should be reached

WASHINGTON, June 8—Secretary Sherman declines to make public his letter to the Potter committee yesterday, until that committee acts upon it. The secretary, in a letter, replies to a charge that he had entered into a conspiracy to make false returns of elections; that it was free and fair, and and offers certain testimony to show there was fraud, violence and intimidation in the Feliciana parishes by Democrats. He furnishes the names of one hundred witnesses to prove his assertions. The report refers to the testimony of witnesses on former investigation, and gives a resume of the number of persons whipped, burned and hanged. He asks that the committee accord him the right to prove what he asserts.

WASHINGTON, D. C., June 9.—Senator Edmunds will, to-morrow, ask to be excused from service on the special committee appointed by request of Mr. Matthews to inquire into matters touching the last Presidential election in Louisiana. Mr. Edmunds has been suffering from malaria, and desires to return home immediately after the adjournment.

The bond of ex-Gov. Packard, of Louisiana, as Consul to Liverpool, has been received at the State Department and approved.

It is reported Senator Matthews was served last night with a subpœna, to appear before the Potter Committee, but the Sergeant-at-Arms, at a late hour to-night, had received no report from his deputy subpœna clerk, in whose hands it was placed. It has not yet been served, but there is no doubt it will be to-morrow morning.

DENVER, Col., June 8.—A circular just issued by D. C. Dodge, General Agent of the Denver and Rio Grande Railway, stops the sale of through tickets or contracts for freight through to Denver. This cuts off the Atchison, Topeka and Santa Fe from Pueblo here, except at local rates, and is evidence of Jay Gould's control. The result will probably be the continuation of the Atchison, Topeka and Santa Fe from Pueblo to Denver.

PHILADELPHIA, June 9.—The Socialists had arranged for a hall for a mass meeting Tuesday evening, but on going to pay the rent, were told the Mayor had requested the proprietor not to permit the meeting. An indignation meeting was held and strong language against the action of the Mayor indulged in. Arrangements were made for another hall.

LONDON, June 8.—The explosion in Evans' coal mines, at Haydock, yesterday, occurred at 11 o'clock in the morning. The Woodpit colliery consists of two mines—Ravenshead and Florida. The explosion was confined to the last named. The men went to work at 6 a. m. The condition of the mind had been examined as usual, and ten minutes before the disaster, it was, to all appearances, safe. There were 250 men in the Woodpit colliery—eighteen in the Ravenshead, and the remainder in the Florida mine. The men in the Ravenshead were got out immediately; one died, and the others were affected by choke-damp. The two mines are connected by a tunnel, and it was in the working of the Florida mine, beyond the tunnel, that the explosion occurred. It is the general opinion that every man in that part of the mine is dead.

The explorers found the dead bodies of men and horses on every side, fearfully burnt and mutilated, giving evidence of the dreadful force of the explosion. A great fall of coal occurred.

The men engaged in exploring the mine are working day and night, endeavoring to reach the place where most of the bodies are supposed to lie.

Great crowds of men, women and children have assembled in the vicinity of the pit, and the general opinion prevails that nearly every family in the village of Haydock has suffered the loss of one or more of its members.

No powder was used in the mine.—The manager of the mine went down the shaft five minutes after the explosion, and finding a number of men at the bottom lying on their faces, opened the ventilating doors, and thus saved the lives of eighteen men. In the Ravenshead mine the bodies already found are much disfigured. It will probably be days before all the bodies are recovered. The explorers have suffered greatly and have had to be constantly removed. A large staff of doctors is in attendance.

Crowds of women surround the pit since the explosion, weeping and begging for news from the explorers, but, on the whole, the people are very quiet and orderly.

JACKSONVILLE, FLA., June 8.—The committee on election frauds to-day had O. A. Bodington, formerly clerk of Clay county, who testified that one precinct was not included in the regular returns, because it was doubtful whether some of the inspectors were sworn. He afterwards learned they were sworn and made affidavit to the governor of Florida.

A. Bryant, clerk of Leon county, and C. H. Edwards, former clerk, testified regarding the jolly-joker election tickets that Purman had there before the election. Bowes, an inspector, said he put in 73 or 74 jolly-jokers, and when remonstrated with, said he did not care. He had given the state to Hayes with these jokers. Bowes said the poll-list was made to correspond with those votes. Witness (Edwards) said he had objected to the use of the jokers.—Purman said he knew an election that was carried by using them.

Samuel R. McLin was shown a number of telegrams to Gov. Stearns, mostly from W. E. Chandler, setting forth that the election and the salvation of the country depended on Florida, and means or troops be furnished or a way suggested. Some gentlemen came to represent Hayes, including Chandler and Noyes. Was told anything Noyes said the president would be responsible for, and was told by General Wallace the returning board would be taken care of if the state went for Hayes.

Witness and Stearns agreed that the returns would elect Hayes. There were three returns from Baker county. One of these elected Hayes by forty majority, but either of the others gave Tilden ninety-five majority in the state.—He had, when opportunity admitted, presented such returns as were most favorable to Hayes, and generally the most regular.

COLUMBUS, O., June 9.—The milk poisoning case, which has been briefly alluded to before, upon investigation proves to be one of the most diabolical attempts to take human life ever attempted in this section. Seven years ago Thomas Deems, the father, lost his wife, and soon after secured a housekeeper named Alice Jones. Deems was the owner of one of the most valuable farms in this section, and the possessor of considerable other property. Stephen Deems, a son, had moved to Illinois. A daughter, married, and residing in this city, soon became aware that the woman Jones had gained complete control over her father, and even dictated how the affairs of the farm should be conducted. The father became the tool of the woman, and indulged her in every way. Her will was law. The son was prevailed upon to return from Illinois and look after the homestead. Continued outbreaks were the result. Finally, to put an end to further annoyance, the would-be Borgia poisoned the milk, by which she hoped to put out of the way Stephen Deems, his wife, and four children. Stephen was the only one who drank of the prepared decoction. He became deathly sick, but, by the prompt arrival of a physician, his life was saved. An analysis has been held, and in one quart of the milk thirty grains of arsenic were found. The woman Jones was arrested this afternoon. It is thought the old man will bail her out, if possible, he being about seventy years of age, and completely subject to her will. It is found that the bank account has disappeared, and the farm is heavily mortgaged.

DES MOINES, IA., June 8.—Communists here say boldly that on the day when the Congress is to adjourn (June 27), every car-wheel will stop in the United States at noon. They are evidently preparing for some important event

WASHINGTON, D. C., June 9.—The [illegible] agents of the Republican Congressional Committee are now at work in the departments receiving the contributions of employes to the Republican campaign fund. The employes express themselves as willing and anxious to furnish their share, particularly as now it is a voluntary contribution on their part, and not forced under threats of removal. The amount contributed averages about one per cent of the yearly salary. Under the responsible system formerly in vogue such contributions were sometimes crowded up to 3 and as high even as 5 per cent. Every employe now contributing not only knows that he only bears an equitable share of the burden, but that the funds will reach their destination. Secretary Evarts stated to-day that so far as the cabinet officers were concerned he thought the committee would get more if they would assess a percentage upon the cost of living instead of upon salaries received from the government.—The committee hold meetings twice a week and are making effective preparations for the campaign in the way of preparing documents for circulation.—Accounts received by members from various sections of the country show that Republican enthusiasm has been thoroughly aroused, and notwithstanding the machinations of the Democrats in redistricting states and resorting to other questionable means for an advantage, Republican prospects of the campaign are extremely favorable and daily growing brighter through the energetic efforts of the party workers throughout the country.

AN ASTONISHING FACT.

A large proportion of the American people are to day suffering from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower, your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent.

No more scraps or doctored tobacco for smokers, when you can buy the celebrated hand made brand, "Tansill's Gen Custer," at two for 15 cents. To get them seasoned you must buy a box, since the manufacturers cannot fill their orders with seasoned goods.

BILLS for the celebration of the Fourth of July in this city are being sent out to all parts of the county, and present indications are that there will be a large attendance in town on that day.

OWING to the unfavorable state of the weather the audience at the First M E. Church was not large last evening The address on temperance by Rev Mr. Stoughton is spoken of as a very able and interesting one. We have heard several who listened to the speech say that it was the ablest address on temperance they have yet listened to.

THE new jury panel for this week and next has added considerably to the population of the city to-day. The farmers who have been summoned from their homes to do service are quite disinclined to stay, as it is a busy time with them.—They say to the court, "I pray thee have me excused"

MR. [illegible], who lives on North Main street, captured three white rats on his premises yesterday. They were about half grown. We have heard of white mice, but so far as our knowledge goes white rats are a new thing under the sun We understand that these are to be caged and kept for exhibition.

DISCHARGED FROM JAIL.—The young man Fagan, [illegible], who was tried for bastardy at the last term of court and found guilty, and was committed until the fine [illegible] brought before Judge Nelson, on Saturday afternoon on a writ of habeas corpus with a view to obtaining his discharge under the insolvent debtor's act. Upon a hearing of the case the Judge ordered his discharge.

PROMISCUOUS DISTRIBUTION OF MILK.

Yesterday morning Frank Moder, one of our city milkmen, started out on his route for the purpose of supplying his customers with their morning allowance of the nourishing fluid. All went smoothly until he stepped from his wagon on North Main street, in the vicinity of Judge Nelson's residence, for the purpose of calling at the house of a patron, when his restive steeds, taking advantage of his momentary absence from the vehicle, started off at a brisk trot, and were soon down to a dead run, and went south to Wood st. at a speed that would have been creditable at the St. Louis races. The jolting of the wagon over rough places upset the milk cans, and their contents were scattered along the streets in generous profusion. Turning east on Wood street, the foaming steeds rushed on over the track of the Central railroad, and finally hauled up in an alley near Walter Pope's stable. The wagon was somewhat demoralized by the race, though not badly broken, and the milk was mostly scattered along the route by which the team had come. On the whole the race was an exciting one, particularly to the horses and their owner.

KNIGHTS OF HONOR.—The Grand Lodge of this order is to meet in this city to-morrow, and will be composed of about one hundred delegates from all parts of the state. There are already in our city from abroad John S. C. Miller, of Bloomington, Grand Dictator, Leroy Wiley, of Paris, Grand Reporter, with the following delegates: L G. Roberts, Mattoon; L. W. Jones, Marshville; W. H. Studebaker, West Lanesboro; W. C. Hendlin, Monticello; Stanley B. Walker, Charleston; G. W Gray, Humboldt, William A Linder, Westfield, W. H. McCormick and H H Swett, Beardstown. Other delegates will arrive by the night trains, and the lodge will open to-morrow morning at 9 o'clock.

THE SATURDAY NIGHT TEMPERANCE MEETING.—Notwithstanding the rain-fall of Saturday evening the court-house was well-filled by people wishing to hear the Rev J C. Stoughton, of Peoria, discuss the temperance question. The audience was composed largely of men, and the speaker received the closest attention of his hearers. The address was devoted to showing how the liquor traffice corrupts the politics of the country and endangers her institutions The lecture was characterized by a clear statement of the theories held by the speaker, and a dispassionate discussion of the several propositions submitted for the consideration of the audience, and whether agreeing with the views expressed or not, none could help admitting that they were presented with ability and candor.

New Music.—We have received a new song and chorus, entitled "There's a Good Time Coming," words by E R Latta, music by R B Mahaffey Simple though it is, it is a most charming song For sale by P T Locke, Opera Block.

Another fine song, "Good Night to Thee, Darling," has been laid on our table by the publishers, Messrs. J. S. Hand & Co, of this city This song has another local interest, the words being by Prof Schick and the music by S M Lutz Both have done themselves great credit in this joint production, and the song should meet with a large sale in Decatur. For sale at Hand's.

PICNIC.—The German Aid Society holds a picnic to-day in the grove near Harpstrite's brewery The Decatur band furnishes music for the occasion. There is a general turnout of the society, and a good many other people are in attendance A fine time is being enjoyed

AN ELOQUENT DISCOURSE.—Notwithstanding the copious fall of rain at the hour appointed for the discourse by Rev E Manford, of Chicago, at the Universalist church, that gentleman met his engagement, and preached an eloquent discourse from the text, "God is love." The audience was not large, on account of the storm, but all present were much pleased with the sermon

ANOTHER ASPIRANT.—Frank L. Wood, Esq., announces to-day as a candidate for the temperance nomination for sheriff. [illegible] is one of our best [illegible] citizens, and is in every way competent to discharge the duties of the office, and if nominated will doubtless carry the full vote of his party

AN INVITATION.—Prof J. W. Hertel has received an invitation to play in an organ concert at Coldwater, Mich., about the first of July. The concert is to be given by the M. E. Church of that city, the occasion being the putting up of a No. 8 Hook organ. The gentleman who writes says, "I am extremely desirous that you shall be the first to play it, and want once more to hear you." Mr. Hertel has not yet determined whether he will accept the invitation or not.

A LEG BROKEN.—On Saturday afternoon Mr Peter Bourquin, who lives about 12 miles northeast of Decatur, met with quite a serious accident on Merchant st It seems that Mr. B. had imbibed a little too much "tangle-leg," and when he attempted to get into his wagon to start for home, by some means his foot slipped and he fell heavily to the ground, breaking one leg between the knee and hip. He was taken to Dr Walston's office, where the limb was set. He was then removed to the American House, where he still is, and will be likely to remain for weeks to come

THE wheat harvest is now in progress throughout Kansas, and dispatches from all quarters represent that the crop will far exceed any previous one, both in quantity and quality. The average yield per acre is put at 25 to 30 bushels. The average of other grains per acre are: Oats 50 bushels, rye 40 bushels, barley, 40 bushels, Corn is in splendid condition. The acreage of all crops is fully 200 per cent above that of any previous year.

There is Trouble in Store

For those who neglect to rectify irregularities of the stomach, liver and bowels, which they foolishly imagine will "come right of themselves." Of this silly error such persons are usually disabused by the development of some serious chronic malady, traceable to what they were pleased to consider a trifling disorder of the above named associate organs. Such a culmination is easily avoided. A course of Hostetter's Stomach Bitters invariably has the effect of renewing the secretive action of a torpid liver, restoring healthy digestion and assimilation, and rendering the habit of body perfectly regular. The activity of these all important functions being restored, and the entire system toned and regulated by this incomparable corrective and invigorant, no danger to the general health is to be apprehended from causes which, if not eradicated in time, will assuredly undermine it.

BILLS for the celebration of the Fourth of July in this city are being sent out to all parts of the county, and present indications are that there will be a large attendance in town on that day.

OWING to the unfavorable state of the weather the audience at the First M. E. Church was not large last evening The address on temperance by Rev Mr. Stoughton is spoken of as a very able and interesting one. We have heard several who listened to the speech say that it was the ablest address on temperance they have yet listened to.

ICE CREAM, Soda Water and Lemonade, the best in the city, at "MARTIN'S" June4 dim]

THE new jury panel for this week and next has added considerably to the population of the city to-day. The farmers who have been summoned from their homes to do service are quite disinclined to stay, as it is a busy time with them.—They say to the court, "I pray thee have me excused"

MR. SMILEY(?), who lives on North Main street, captured three white rats on his premises yesterday. They were about half grown. We have heard of white mice, but so far as our knowledge goes white rats are a new thing under the sun We understand that these are to be caged and kept for exhibition.

HARDAWAY, who is owned by Messrs. Powers and Buckles, is entered for another race to-day at St. Louis. This is the last day of the St. Louis races, and Mr. Powers' horses will probably come home to-morrow unless they are shipped to Louisville [illegible]

OUT ON BAIL.—The young man William [illegible] Conard, who was a few days ago held to bail under a charge of stealing a plow, obtained satisfactory bail on Saturday afternoon, and was released from jail.

DISCHARGED FROM JAIL.—The young man Fagan, from Oakley, who was tried for bastardy at the last term of court and found guilty, and was committed until the fine and costs were paid, was brought before Judge Nelson on Saturday afternoon on a writ of habeas corpus with a view to obtaining his discharge under the insolvent-debtor's act. Upon hearing of the case the Judge ordered his discharge.

PROMISCUOUS DISTRIBUTION OF MILK.

Yesterday morning Frank Moder, one of our city milkmen, started out on his route for the purpose of supplying his customers with their morning allowance of the nourishing fluid. All went smoothly until he stepped from his wagon on North Main street, in the vicinity of Judge Nelson's residence, for the purpose of calling at the house of a patron, when his restive steeds, taking advantage of his momentary absence from the vehicle, started off at a brisk trot, and were soon down to a dead run, and went south to Wood st. at a speed that would have been creditable at the St. Louis races. The jolting of the wagon over rough places upset the milk cans, and their contents were scattered along the streets in generous profusion. Turning east on Wood street, the foaming steeds rushed on over the track of the Central railroad, and finally hauled up in an alley near Walter Pope's stable. The wagon was somewhat demoralized by the race, though not badly broken, and the milk was mostly scattered along the route by which the team had come. On the whole the race was an exciting one, particularly to the horses and their owner.

KNIGHTS OF HONOR.—The Grand Lodge of this order is to meet in this city to-morrow, and will be composed of about one hundred delegates from all parts of the state. There are already in our city from abroad John S. C. Miller, of Bloomington, Grand Dictator; Leroy Wiley, of Paris, Grand Reporter, with the following delegates L. G. Roberts, Mattoon; L. W. Jones, Marshville(?); W. R. Studebaker, West Lancaster(?); W. C. Handlin, Monticello; Stanley B. Walker, Charleston; D. W. Gray, Humboldt, William A. Linder, Westfield, W. H. McCormick and H H Swett, Beardstown. Other delegates will arrive by the night trains, and the lodge will open to-morrow morning at 9 o'clock.

THE SATURDAY NIGHT TEMPERANCE MEETING.—Notwithstanding the rain-fall of Saturday evening the court-house was well-filled by people wishing to hear the Rev J C. Stoughton, of Peoria, discuss the temperance question. The audience was composed largely of men, and the speaker received the closest attention of his hearers. The address was devoted to showing how the liquor traffice corrupts the politics of the country and endangers her institutions The lecture was characterized by a clear statement of the theories held by the speaker, and a dispassionate discussion of the several propositions submitted for the consideration of the audience, and whether agreeing with the views expressed or not, none could help admitting that they were presented with ability and candor.

New Music.—We have received a new song and chorus, entitled "There's a Good Time Coming," words by E R Latta, music by R B Mahaffey Simple though it is, it is a most charming song For sale by P T Locke, Opera Block.

Another fine song, "Good Night to Thee, Darling," has been laid on our table by the publishers, Messrs. J. S. Hand & Co, of this city This song has another local interest, the words being by Prof Schick and the music by S M Lutz Both have done themselves great credit in this joint production, and the song should meet with a large sale in Decatur. For sale at Hand's.

PICNIC.—The German Aid Society holds a picnic to-day in the grove near Harpstrite's brewery The Decatur band furnishes music for the occasion. There is a general turnout of the society, and a good many other people are in attendance A fine time is being enjoyed

AN ELOQUENT DISCOURSE.—Notwithstanding the copious fall of rain at the hour appointed for the discourse by Rev E Manford, of Chicago, at the Universalist church, that gentleman met his engagement, and preached an eloquent discourse from the text, "God is love." The audience was not large, on account of the storm, but all present were much pleased with the sermon

ANOTHER ASPIRANT.—Frank L. Wood, Esq., announces to-day as a candidate for the temperance nomination for sheriff. The 'Squire is one of our best known citizens, and is in every way competent to discharge the duties of the office, and if nominated will doubtless carry the full vote of his party

AN INVITATION.—Prof J. W. Hertel has received an invitation to play in an organ concert at Coldwater, Mich., about the first of July. The concert is to be given by the M. E. Church of that city, the occasion being the putting up of a No. 8 Hook organ. The gentleman who writes says, "I am extremely desirous that you shall be the first to play it, and want once more to hear you." Mr. Hertel has not yet determined whether he will accept the invitation or not.

A LEG BROKEN.—On Saturday afternoon Mr Peter Bourquin, who lives about 12 miles northeast of Decatur, met with quite a serious accident on Merchant st It seems that Mr. B. had imbibed a little too much "tangle-leg," and when he attempted to get into his wagon to start for home, by some means his foot slipped and he fell heavily to the ground, breaking one leg between the knee and hip. He was taken to Dr Walston's office, where the limb was set. He was then removed to the American House, where he still is, and will be likely to remain for weeks to come

THE wheat harvest is now in progress throughout Kansas, and dispatches from all quarters represent that the crop will far exceed any previous one, both in quantity and quality. The average yield per acre is put at 25 to 30 bushels. The average of other grains per acre are: Oats 50 bushels, rye 40 bushels, barley, 40 bushels. Corn is in splendid condition. The acreage of all crops is fully 200 per cent above that of any previous year.

There is Trouble in Store

For those who neglect to rectify irregularities of the stomach, liver and bowels, which they foolishly imagine will "come right of themselves." Of this silly error such persons are usually disabused by the development of some serious chronic malady, traceable to what they were pleased to consider a trifling disorder of the above named associate organs. Such a culmination is easily avoided. A course of Hostetter's Stomach Bitters invariably has the effect of renewing the secretive action of a torpid liver, restoring healthy digestion and assimilation, and rendering the habit of body perfectly regular. The activity of those all important functions being restored, and the entire system toned and regulated by this incomparable corrective and invigorant, no danger to the general health is to be apprehended from causes which, if not eradicated in time, will assuredly undermine it. GEN. BUTLER'S DOUBLE.

From the Lowell (Mass.) Courier.

The meeting of the Lawrence Debating Club Monday evening was enlivened by a scene not down on the programme, which is worthy of mention. The subject of discussion was the official conduct of the member of congress from this district, and his actions on several measures were being criticised by a speaker, when the door opened, and to the surprise of all beholders, a gentleman, apparently the Congressman himself, entered and stood up to the view of the assembly. The speaker proceeded with his remarks, but had spoken but a few sentences when the Congressman arose and sharply attacked the speaker for uttering and the society for permitting such criticisms of a representative who was not present to defend himself. He went on in explanation of his votes, and was fast becoming rather critical himself, when another member interrupted with a protest against any further talk from the interloper. He said the members met to discuss the conduct of their representative, and when the latter was wanted he would be sent for. As it was they knew what he had been doing in Congress, and that was enough for them. Whereupon the Congressman left his place and, walking over to the interrupting member, exclaimed, "Shoo fly, don't bodder me!" Then he resumed his remarks, and for twenty minutes poured forth in the manner of the Congressman an eloquent defence of his course, after which he left the room and the members to their reflections. The unexpected advent of the General, as many supposed the speaker to be, cast a gloom over the community. It was not until the next day that all present were convinced of their mistake, and some were with difficulty persuaded that the individual was not Gen. Butler. As a matter of fact, it was a citizen who bears a very close resemblance to the General.

A Few Things that we Know.

We know that a disordered stomach or liver produces more suffering than any other cause. We know that very few physicians are successful in their treatment of these disorders. We know that DaCosta's Radical Cure will, without the shadow of a doubt, almost immediately relieve and permanently cure all of these distressing symptoms. We know of thousands who are willing to testify that what we say is true to the letter. We know that *if you* will give it a *fair* trial, *you* will let us add your name to the "cloud of witnesses." Will you give it a trial, and do it now? Trial size only 25 cents. Sold by Dr. A. J Stoner, druggist, Decatur.

WHY THE HAIR FALLS OUT,

AND HOW TO RESTORE ITS STRENGTH AND COLOR.—Each hair is secreted by a *little* vesicle or gland, the latter being nourished by a small blood-vessel. As long as these blood-vessels furnish sufficient encouragement the hair will continue to grow; but if from disease or other cause they become torpid or obstructed, the hair will necessarily become dry and fall off. It is here the wonderful virtues of "London Hair-Color Restorer" are manifested, as its tonic properties excite these hair follicles to increased activity and completely restore the scalp to a healthy condition, and a fine growth of hair in its natural youthful color is sure to be the result. Apart from its tonic and coloring qualities, "London Hair-Color Restorer" is the most cleanly *and lasting of all hair* dressings, making it indispensable on the toilet of every lady and gentleman. BEN. BUTLER'S DOUBLE.

From the Lowell (Mass.) Courier.

The meeting of the Lawrence Debating Club Monday evening was enlivened by a scene not down on the programme, which is worthy of mention. The subject of discussion was the official conduct of the member of congress from this district, and his actions on several measures were being criticised by a speaker, when the door opened, and to the surprise of all beholders, a gentleman, apparently the Congressman himself, entered and stood up to the view of the assembly. The speaker proceeded with his remarks, but had spoken but a few sentences when the Congressman arose and sharply attacked the speaker for uttering and the society for permitting such criticisms of a representative who was not present to defend himself. He went on in explanation of his votes, and was fast becoming rather critical himself, when another member interrupted with a protest against any further talk from the interloper. He said the members met to discuss the conduct of their representative, and when the latter was wanted he would be sent for. As it was they knew what he had been doing in Congress, and that was enough for them. Whereupon the Congressman left his place and, walking over to the interrupting member, exclaimed, "Shoo fly, don't bodder me!" Then he resumed his remarks, and for twenty minutes poured forth in the manner of the Congressman an eloquent defence of his course, after which he left the room and the members to their reflections. The unexpected advent of the General, as many supposed the speaker to be, cast a gloom over the community. It was not until the next day that all present were convinced of their mistake, and some were with difficulty persuaded that the individual was not Gen. Butler. As a matter of fact, it was a citizen who bears a very close resemblance to the General.

A Few Things that we Know.

We know that a disordered stomach or liver produces more suffering than any other cause We know that very few physicians are successful in their treatment of these disorders. We know that DaCosta's Radical Cure will, without the shadow of a doubt, almost immediately relieve and permanently cure all of these distressing symptoms. We know of thousands who are willing to testify that what we say is true to the letter. We know that if you will give it a fair trial, you will let us add your name to the "cloud of witnesses." Will you give it a trial, and do it now? Trial size only 25 cents Sold by Dr. A. J Stoner, druggist, Decatur.

WHY THE HAIR FALLS OUT,

AND HOW TO RESTORE ITS STRENGTH AND COLOR.—Each hair is secreted by a little vesicle or gland, the latter being nourished by a small blood-vessel As long as these blood-vessels furnish sufficient encouragement the hair will continue to grow; but if from disease or other cause they become torpid or obstructed, the hair will necessarily become dry and fall off It is here the wonderful virtues of "London Hair-Color Restorer" are manifested, as its tonic properties excite those hair follicles to increased activity and completely restore the scalp to a healthy condition, and a fine growth of hair in its natural youthful color is sure to be the result. Apart from its tonic and coloring qualities, "London Hair-Color Restorer" is the most cleanly and lasting of all hair dressings, making it indispensable on the toilet of every lady and gentleman Sold at 75 cents a bottle by all leading druggists.
